## Decorating Your Space

**Set a budget | Keep every receipt**  
Consider only buying what you can reuse. If you can't reuse it, consider giving it away as a prize when your program wraps up.

**Pinterest is your Friend**  
All the Punny Food and Craft Creative Help you could ever need!

**Think Outside the "Box"**  
Old boxes and materials lying around that we use and receive every day can make great displays. **Computer Box = Giant Book**

**Wall Decor**  
Using your wall space helps keep your space clean and open. Make sure to keep anything detachable or small at least three feet off the ground.

### Fairy Tales ARE the Most Broad of Decor

Seriously, do not panic. Decorating and finding connecting to fairy tales are easy. You have basically been practicing for this moment your entire life. Know your audience and create your own story!
