

MackinVIA Shared Digital Collections

Greenbush and Mackin are excited to announce Shared Digital Collections through the Kansas Library Consortium.

With MackinVIA, sharing eBooks, audiobooks and all digital content between schools in a consortium is one of the simplest, and most economical ways to introduce digital content to a large number of students at an extremely affordable price. When a digital library is shared, it expands the bounds of what a single school can purchase, giving all participating schools access to the purchased content.

Best of all, MackinVIA is an "open system" which allows your schools and districts to add additional materials they already own or have access to through the state or through the district.

School Pricing Model for 2020-2021 Shared Collection

Early adopters/first-year consortium participants will also receive the 640 title (K-12) Greenbush collection in addition to the purchases made by the Kansas Consortium!

< 250 students = \$250

501-1,000 students = \$750

> 2,000 students = \$1,500

251-500 students = \$500

1,001-2,000 students = \$1,000

Professional Package = \$250/district

Benefits of MackinVIA
