

## Save the Date!

You're invited to the **Kansas Early Literacy Symposium** on Friday, April 14, 2023, at Topeka & Shawnee County Public Library. Mark your calendar and save the day--you won't want to miss this energizing day of professional development.

This engaging session will bring together early childhood educators and library and museum professionals who work with families of children aged birth through Kindergarten.

Through a combination of professional instruction and group interaction, we will explore two key topics:

- [Engineering and Empathy](#) - helping young children explore STEM concepts
- [Mind in the Making](#) - promoting and practicing executive function life skills

For a sneak peek at our facilitator, Beth Fredericks, take a look at this short video: "[Just Enough Engagement](#)".

**We look forward to seeing you there!**

Sponsored by [North Central Kansas Libraries System](#) and [Northeast Kansas Library System](#). Contact Sandy Wilkerson (swilkerson@nckls.org) or Anna Foote (afoote@nekls.org).
